

KWI KRX 1000 clutch kit

KRX1000 Kit Contents- 4 krx 1000 cam arms, 4 rollers, magnets

Heres a new FAQ we can promote. Why don't we sell you springs and a helix with some of our clutch kits? Because you don't need them.... If they were needed we would include them. We engineer our weights to take advantage of the OEM springs and helix angles if possible to give you performance with minimal hassle. We have other items that you don't need like Tshirts and hats you can spend your money on if youyd like.

Model / Tune / Tire Size	# of Magnets per weight Heel - Mid - Tip	Primary spring	Secondary spring	Full throttle RPM at 55mph
KRX1000 / stock / 31"	(0) - (1) - (1)	OEM Orange	OEM ORANGE SECONDARY SPRING	7500 RPM +/- 300 RPM
